

MEETING EXHIBITORS

April 30, 2019

#HealthierMO Initiative

c/o Missouri Public Health Association
722 E. Capitol Ave.
Jefferson City, MO 65101
(573) 634-7977

Casey Parnell, Project Manager
cparnell@healthiermo.org

Jaci McReynolds, Communications Coordinator
jmcreynolds@healthiermo.org

HealthierMO is a statewide grassroots initiative seeking to transform Missouri's public health system into a stronger, more sustainable, culturally relevant and responsive system that can better meet the challenges of Missouri's diverse communities and offer every resident the opportunity for a healthier life. The initiative is led by Missouri Public Health Association with support from Missouri State University and funding from Missouri Foundation for Health and Health Forward Foundation. It depends on active grassroots-level participation from public health stakeholders from every corner of Missouri. Learn more at www.HealthierMO.org and join the conversation on Twitter @aHealthierMO and Facebook and Instagram @HealthierMO.

Healthcare Procurement Solutions

429 N. Herrington St.
Wichita, KS 67206
Fax: (770) 771-5945

Mike Ferguson, Business Development Consultant, HPS
mike@healthcareprocurement.com
(214) 263-7644

Mario Karagianis, Physician Marketing Rep., LabCorp
karagim@LabCorp.com
(913) 201-1872

Healthcare Procurement Solutions, LLC ("HPS") was created specifically for alternate care facilities to save money on the products and services they use. HPS does this by leveraging the collective buying power of thousands of participating alternate care members to provide deeply discounted pricing and service enhancements that are simply not available to individual facilities acting independently. Through our alliance with Laboratory Corporation of America (LabCorp), HPS provides members with leading edge testing and diagnostic technologies, a broad range of connectivity and productivity options, and a lab fee schedule that is unparalleled. While our LabCorp alliance is highly impactful and ultimately desirable for member savings and that of their customers, HPS has many more cost savings programs available through other complimentary industry leaders. As always, participation in any of the HPS programs is entirely voluntary, non-exclusive, and there are no membership dues or fees of any kind paid by HPS Members.

Heartland Center for Population Health and Community Systems Development

Saint Louis University
3545 Lafayette Ave., Salus Center, Ste. 300
St. Louis, MO 63025

Scott Nyberg, Director of Learning Management System
scott.nyberg@slu.edu
(314) 440-8342

The Learning Management System, through the Heartland Center for Population Health and Community Systems Development, is a highly adaptable learning resource that provides workforce development and other professional development learning opportunities tailored to the workforce needs of local public health agencies. The mission of the Heartland Center for Population Health and Community Systems Development is to strengthen the competence, performance, and capacity of current and future health care, public health, and other workforce leaders and organizations to improve population health and community systems. We accomplish our mission through education and partnerships that contribute to enhanced practice linkages across related health and community sectors. To learn more, please email us at lmshelp@slu.edu

**Missouri State University
Master of Public Health Program**

901 South National Avenue (MPH Program)
Springfield, MO 65897

David M. Claborn, Director, MPH Program
davidclaborn@missouristate.edu
(417) 836-8945

The Master of Public Health Program at Missouri provides a nationally accredited MPH through a combination of seated, online and blended courses. The degree is not totally online. The program also provides three graduate certificates consisting of five courses each in the fields of public health & homeland security, public health & health administration, and general public health.

Some of the certificates can be completed online. The MPH program also collaborates with the College of Business to provide dual degrees in public health (MPH) and healthcare administration (MHA).

**Missouri Telehealth Network &
Show-Me ECHO**

2800 Maguire Boulevard
Columbia, MO 65211
(573) 884-7958
Fax: (573) 884-8162

Dean Andersen, Outreach Coordinator
andersendc@health.missouri.edu

Treaka Young, Outreach Coordinator
youngtre@health.missouri.edu

The Missouri Telehealth Network (MTN) increases access to patient-centered health care via telehealth for rural and underserved Missourians by providing technical assistance to health care organizations partnering with key stakeholders, operating telehealth programs, and supporting and developing telehealth policies. MTN also operates Show-Me ECHO, which connects community providers with experts, building virtual learning and mentoring collaboratives to increase capacity for care.

**Saint Louis University College for
Public Health & Social Justice**

3545 Lafayette Ave.
St. Louis, MO 63104

Bernie Backer, Director of Graduate Admissions
bernard.backer@slu.edu
(314) 977-8144

Saint Louis University College for Public Health and Social Justice provides nationally recognized, fully accredited certificate and degree programs in public health and health administration. Numerous concentration areas, joint concentrations and dual degree programs are available.

Courses taken as part of certificate programs can be applied later toward graduate degree programs. Applications are welcome until August 1.
